- [Prof. Dr. Andreas Steininger](#) (Information Technology Law, Media Law). Ranked since 2019.
- [Falk Tischendorf](#) (Construction Law, Corporate Law, Real Estate Law, Trade Law). Ranked since 2013.

Best Lawyers is rightly considered one of the most authoritative ratings in the world. The rating is compiled on the basis of an expert assessment of the professional level and reputation of the lawyers and firms by colleagues who are practising lawyers in the same region and in the same area of law. At the same time, they should only name colleagues who

do not work at their law firm. They are asked to provide recommendations for lawyers for a hypothetical case that they cannot take on themselves as they don't have enough time or a case that they cannot take on owing to a conflict of interest.

This results in a comprehensive selection of the most authoritative lawyers who have been recognized among the Best Lawyers 2022 for their excellent reputation on the market.
